Subject:

**FSC statement for BeeCore as supplied by Besin to their customers.**

I, Han Diderich, manager research, development and quality assurance, declare that our product BeeCore as supplied to all customers consists of paper and starch glue of which the paper is made of 100% post consumer waste paper conforming to EN 643. Our paper supplier Emin Leydier confirms this with their declaration and a declaration from an independent French paper institute representing the recycled paper industry (see appendices). Our paper supplier SCA confirms this with their FSC certification. (appendix).
